

Performance is not created by one ingredient or one body part. It comes from connected systems working together—from the inside out.

STRESS RESPONSE

Supports healthy cortisol balance, mental focus and composed behavior.

ENERGY + GLUCOSE

Supports healthy glucose metabolism, cellular uptake and efficient energy use.

MUSCLE + RECOVERY

Helps develop and maintain lean muscle while supporting tissue repair and recovery.

INFLAMMATORY RESPONSE

Omega sources and antioxidants support a balanced whole-body response.

GUT HEALTH

Supports digestion, nutrient absorption and everyday gastric comfort.

JOINT + STRUCTURAL

Supports healthy cartilage, connective tissue, joint function and mobility.

THE WHOLE-HORSE RESULT

FOCUS

Mental clarity +
steady behavior

RECOVERY

Muscle support +
post-work resilience

MOBILITY

Joint function +
fluid movement

HEALTHY CONDITION

Normal immune function +
a healthy, shiny coat

SUPPORT REPAIR AT THE SOURCE.

Comprehensive performance support in one formula.

6 PACTM EQUINE

THE Performance Horse Supplement

WHAT POWERS THE SYSTEM.

Targeted nutrition that works across the whole horse.

FORMULA FOUNDATION

Six nutritional strategies working together—so you can simplify the feed room without narrowing your horse's support.

01	PRE + PROBIOTICS	Support a healthy digestive environment and nutrient utilization.
02	ESSENTIAL AMINO ACIDS	Provide building blocks for muscle development, maintenance and tissue repair.
03	VITAMIN E + ANTIOXIDANTS	Support muscle, normal immune function and a balanced oxidative response.
04	OMEGA SOURCES	Flaxseed and fish oil supply complementary fatty acids, including marine-derived EPA and DHA.
05	ALOE VERA	Provides nutritional support for a healthy digestive environment.
06	CHROMIUM PROPIONATE	Supports healthy glucose metabolism, cellular uptake and efficient energy utilization.

Available in 10 lb and 25 lb sizes.

WHAT OWNERS NOTICE

FOCUS • RECOVERY • MOBILITY • HEALTHY CONDITION

Support that reaches beyond the joint and shows up across the whole horse.

CREATED FOR

- Performance horses
- Broodmares + growing foals
- Stallions
- Senior horses
- Sale horses

CAUTION: Follow label directions. Supplemental chromium from all sources must not exceed 4 mg per horse daily. For animal use only. Keep away from children.

FEEDING MADE SIMPLE

Introduce gradually over 2-3 days. Mix into daily feed at 0.02% of body weight. A 1,200-lb horse receives 4 oz daily. One scoop provides approximately 2 oz.

10 LB • 40 DAYS*

25 LB • 100 DAYS*

*Approximate supply for a 1,200-lb horse.

ONE FORMULA. SIX PERFORMANCE SYSTEMS.
